NEW DELHI-2 (INDIA);

The 25th August, 1952.

K. MITRA,
for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57%, and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year.

Deposits accepted at offices of the Reserve Bank of India at Bombay, Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

3½%

TEN-YEAR TREASURY SAVINGS DEPOSITS

AC.275

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

REMARKS

The figures of births and deaths shown in this statement for week ending the 2nd August, 1952, relate to 207 towns with an estimated population of 28,666 thousands. The total number of towns is 281 and their population is 34,764 thousands. Thus 74% of the total number of towns representing 82% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 17,521 and 9,492 representing birth and death rates of 31·8 and 17·2 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 179 towns with an estimated population of 25,403 thousands. Information about Bihar and Orissa could not be included. The total number of towns is 235 and their population is 29,570 thousands. Thus 76% of the total number of towns representing 86% of the total population is covered.

The numbers of births and deaths recorded in these towns were 13,534 and 8,633 representing birth and death rates of 31·8 and 17·7 per thousand of population respectively. The table at the end gives the position by States.

Hathras in Uttar Pradesh was the only town which had a high death rate of 52·9 per thousand of population and this high death rate was mainly due to deaths from fever.

(B) States (Part B).—The data here relate to 28 towns with an estimated population of 3,263 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 61% of the total number of towns representing 63% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,987 and 859 representing birth and death rates of 31·7 and 13·7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
